MOBILITY ERASMUS+ KA1

Internships in Europe and beyond... for VET (**V**ocational **E**ducation and **T**raining) students to acquire skills, improve language proficiency, and expand opportunities. Programs for teachers.

An illustration of travel gear on a blue suitcase. The suitcase is the central focus, with a brown leather bag, a white hat, and a blue jacket on top. A pair of brown shoes is on the ground next to it. The background shows a stylized world map and a cityscape under a blue sky with clouds.

educationalmobility.eu

E.M.A. (Educational Mobility Alliance) is a European partnership network that brings together key players in the field of educational mobility, including schools, international organizations, third-sector entities, and educational institutions across Europe.

Thanks to our European partners, we ensure a high and uniform standard across Europe, enhancing the quality of our programs.

"Combining experiences, multiplying opportunities" is our motto: thanks to E.M.A., we multiply learning and growth opportunities for all participants, creating a collaborative and innovative network that enhances education across Europe.

WHAT IS E.M.A.? THE EUROPEAN PARTNERSHIP

E.M.A. (Educational Mobility Alliance) is a European network that brings together schools, international organizations, third-sector entities, and educational institutions to promote educational mobility. It was established to develop strategic collaborations in education and training, fostering innovation and the exchange of best practices within the Erasmus+ framework. It serves as a facilitator for public-private partnerships, a reference point for excellent educational practices, and a catalyst for new opportunities in international cooperation. Members benefit from cross-border connections and innovative collaborations to achieve their educational goals.

Thanks to our numerous international partners, we offer a wide range of learning and growth opportunities for teachers and students, including:

VET Internships: Internships for students and young professionals aimed at strengthening practical skills in international contexts.

Teacher Trainings: Training courses for teachers on innovative methodologies and new skills.

Job Shadowings: Professional shadowing experiences to directly observe the work of experts in other countries.

Teacher assignment: The Erasmus program allows teachers to work alongside foreign colleagues to exchange best practices and discover new teaching methodologies.

Study Visits: Study visits to explore educational systems and best practices in other countries.

Language Courses: Language courses to improve participants' linguistic skills.

School Education Program: The goal is to foster the development of linguistic, intercultural, and professional skills, enhancing the quality of education at the European level.

Preparatory Visits: Preparatory visits to organize mobility projects and establish relationships with new partners.

OUR ERASMUS+ DESTINATIONS

"Thanks to our extensive network of partners across Europe, including over 20 international organizations, 400 schools, and hosting organizations for students and teachers, we offer mobility opportunities in numerous countries.

Each destination is carefully selected to ensure the best educational and training opportunities, tailored to the specific needs of schools and participants.

Comprehensive Support for Erasmus+ Projects

"We offer a 360-degree service: from initial training on European project design, mobility management, to continuous support for reporting. Thanks to our extensive experience, we ensure efficient and compliant management with Erasmus+ guidelines, allowing you to focus on the educational benefits for your students."

Finding Partners Abroad

"We help you find ideal partners for school exchanges, internships, and training courses. With our extensive network across Europe, we connect you with institutions that meet your specific needs, simplifying the process of building international partnerships."

Logistical Support

"Organizing mobility abroad can be complex, but with our logistical support, everything becomes easier. We assist you in choosing the best solutions for transport and accommodation, ensuring seamless organization and 24/7 assistance for students and teachers."

Experience and Expertise

"Our network has proven years of experience in European project design. We provide comprehensive support for the implementation of Erasmus+ projects and guide you in accessing funding calls and opportunities within the community framework, ensuring effective and targeted solutions for the success of your initiatives."
